PRICE LIST

for Commercial, Medical & Meteorological Instruments

EFFECTIVE AUGUST 21, 1941

The following list prices, subject to regular trade discounts, apply on instruments shown in Catalog Part 5000, Supplement to Catalog Part 5000 (indicated by S before catalog page number), Medical catalog (indicated by M), and Export catalog (indicated by E).

The initials P. O. A. under list price indicate "price on application." All Industrial instruments, including etched stem thermometers and hydrometers (marked with * or ‡ in catalog,) are not priced in this list and will be quoted on request.

All prices subject to change without notice

November 25, 1941

Premier Lighting & Elec. Supply Co.
236 N. Avenue
Garwood, New Jersey

Gentlemen:

We have your letter of November 19 and are sending you under separate cover a copy of our catalog.

Because of limited supply of material, it has been necessary for us to apportion what is available among the customers who purchased from us last year on the basis of their purchases during that period. Consequently, it would not be fair for us to encourage you as a new dealer at this time. It is hoped, however, that you will get in touch with us after the present emergency.

You may very possibly have been purchasing our instruments through a wholesale distributor -- in which case we hope that you will continue to do so. You should receive our catalog in the next day or two.

Yours very truly

C. P. Kramer
